PROFESSIONAL SUMMARY

As a proficient and detail-oriented Frontend Developer, I build visually stunning web and mobile applications. In **web development**, I focus on **responsive design** using **Vue.js**, **React.js**, **HTML**, **CSS**, and **JavaScript**. For **mobile applications**, I leverage **React Native**. My keen eye for detail allows me to transform artistic concepts into engaging, user-friendly digital experiences.

SKILLS

- Vue.js
- HTML
- CSS
- JavaScript
- TypeScript
- Responsive Design
- React Native
- React.js
- GitHub
- Visual Studio Code
- Xcode
- WordPress
- Figma
- Jira
- Confluence
- Notion
- Slack
- Photoshop and Illustrator

EXPERIENCE

MEDOSPHERE

Front End Developer | Remote

November, 2023 - Current

- Leading the development of a React Native mobile application with a focus on iOS, integrating essential features such as Stripe payment integration, Firebase Push Notifications, Auth0 authentication, and the CESDK from IMGly for video content creation and editing. Guiding the compilation and deployment of code into native iOS builds, I manage the submission process to both the Apple Store and TestFlight for testing and distribution.
- Collaborating closely with the project team throughout the entire development lifecycle, contributing to innovative solutions from concept to deployment.
- Implementing robust and scalable frontend solutions, prioritizing the delivery of an optimal user experience.
- Actively engaging in code reviews and participating in technical discussions to maintain code quality and promote knowledge sharing within the team.
- Applying an agile development approach to deliver incremental improvements and responding quickly to user feedback.

SONAR SOFTWARE

Front End Developer | Remote

April, 2022 - July, 2023

- Led frontend development integrating Purchase Orders, PacketLogic, and Sendgrid features.
- Enhanced test suite and developed new features within Shape Up cycles for existing project takeover.

- Collaborated cross-functionally with designers and backend developers to ensure seamless integration.
- Identified and resolved bugs, improving overall stability and performance of solution.
- Collaborated with QA teams to ensure thorough testing and validation of new features and enhancements, resulting in polished final product.
- Participated in regular code reviews, providing constructive feedback and adhering to coding standards to uphold code quality and maintainability.
- Coded using Vue.js, HTML, CSS, Sass, JavaScript and TypeScript to develop features, and Cypress for E2E tests.

SRAX

Front End Developer | Hybrid / Remote

October, 2014 - April, 2022

- Successfully contributed to 3 major version updates of SRAX website, showcasing adaptability and commitment.
- Involved in frontend development for both the SRAX Social web and mobile platforms, as well as the landing page.
- Developed websites for platforms like BIGtoken and Sequire, enhancing online presence and functionality.
- Led execution of web campaigns for esteemed clients such as Budweiser, Kingsford, P&G, and Walmart.
- Collaborated closely with design and marketing teams to ensure brand consistency and campaign effectiveness.
- Employed Agile Scrum methodology, actively participating in sprint planning, daily scrum, sprint review, sprint retrospective, and product backlog refinement.
- Collaborated closely with QA team to ensure comprehensive testing and validation of frontend developments, enhancing overall quality and reliability of projects.
- Coded using Vue.js, React Native, HTML, CSS, Sass, JavaScript, jQuery, WordPress and Bootstrap.

INDEPENDENT PROJECTS

OCR and Face Liveness Detection Web App

Front End Developer | Remote

April 2024 - June, 2024

- Led frontend development for an OCR and Face Liveness Detection web application leveraging AWS Amplify's UI component, FaceLivenessDetector, to ensure authentic user verification and prevent spoofing attempts by malicious actors.
- Implemented OCR functionality to scan users' IDs, enhancing user verification process.
- Developed the application using React.js and Material UI, ensuring a responsive and intuitive user interface.
- Integrated Auth0 for secure authentication and AWS Amplify for seamless deployment and scalability.
- Collaborated with a small team of developers and stakeholders to deliver a robust and user-centric application.

EDUCATION

Bachelor of Computer Science | Universidad Autonoma de Baja California

Mexicali, BC, Mexico
